

An important cybersafety message

Cyberbullying, sexual predation, identity theft and accessing and sending inappropriate images and content are some of the real cybersafety risks facing young people today.

To reduce our students' exposure to these risks, and to help the whole school community embrace the benefits of technology, our school has registered to take part in eSmart.

Funded in Victoria by the State Government, eSmart is an initiative of The Alannah and Madeline Foundation. It was developed by RMIT School of Education, with the input of many other cybersafety and education experts.

We will provide regular updates in future newsletters as we work towards our goal of achieving eSmart status. More information is also available at www.esmart.org.au
